*We reserve the right of final interpretation of the above parameters, subject to change without prior notice.

Effective cutting range: 0.5mm-1200mm, 0.5mm-1600mm, 0.5mm-1200mm, 0.5mm-1600mm

At present, we have established perfect sales network in the domestic and international markets. We have established perfect sales network in the domestic and international markets. We have established perfect sales network in the domestic and international markets.

Transmission system	High-end servo motor drive, imported linear guides, bearings
Working voltage/power	AC 220V/380V/400V/500V
Buffer Capacity	Disposable rapid transmission with page change cutting
Standard network port	Standard network port
Fixed mode	Vacuum adsorption

More stable
More accurate

Standard Tools	High-speed oscillating tool, universal cutting tool, kiss-cut tool, CCD automatic positioning
Optional tools	60000r/min High speed water-cooled milling tool, V-Cut tool, Foam Cut Tool, Creasing Wheel, Pen

specific areas who can provide machine installation and training
support services And software programs are upgraded for free for life

Cutting material All kinds of corrugated cardboard, Yellow cardboard, Red cardboard, PVC board, Honeycombboard, PVC foam board, Acrylic, XT board, Aluminum-plastic board, Fiber middle and rubber board, Thick foam, Gas sticker, adhesive, Reflective film, Photo paper, Photo PVC, etc

Advertising smart cutting machine

...er intelligent advertising cutting machine specializes in cutting 1.5m banner

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

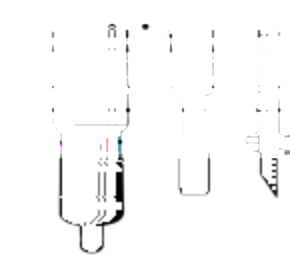

Cutting range: KT board/medium and low density

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

Cutting materials: stickers, car stickers, reflective materials

Original sensorless high-precision positioning technology

More accurate positioning, effectively reducing failure rate.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

The equipment is integrally welded with high-strength steel, accurately processed by a large gantry milling machine, and undergoes strict anti-rust treatment to ensure that the equipment

ABS CUTTING TOOL

By adjusting the depth of the blade tip, on the upper half of the material, you can cut through it.

Application Areas

Suitable for a variety of PP Paper/photos, KT board, Chevron/PVC board, corrugated board, reflective film, self-adhesive, acrylic foam board, paper card, EVA, ABS board and other materials.

Platform self-monitoring system

Intelligent monitoring of platform status; ...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

Intelligent maintenance system

It can reduce the wear of guideways and sliders; ...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

...this machine can cut KT boards and other advertising materials. This machine can cut KT boards and other advertising materials.

AND MORE ACCURATE

3 METERS PER SECOND
FASTER, MORE STABLE
